AUSTRIA ACCEPTS THE ALLIES' TERMS OF ARMISTICE

Washington, Nov. 4.—Terms of armistice, under which the land and sea forces of the Austro-Hungarian empire have laid down their arms, were announced today simultaneously in Washington and the allied capitals. They accomplish complete surrender and open Austrian and Hungarian territory of America and allied operations against Germany.

From this drastic document it may be stated, may be gleaned an accurate outline of the conditions bearing completion in the supreme war council at Versailles, under which Germany may have a cessation of hostilities.

The terms, under which the de facto on the Italian front ended today include complete demobilization of Austrian forces, surrender of one half of all artillery and military equipment, occupation by American and allied forces of such strategic places as may be selected; use of Austrian railroads, for operations against Germany; evacuation of all invaded territory, leaving behind all equipment and supplies, including the surrender of a portion of the Austrian surface and submarine fleets, and disarmament of others, under American and allied control, surrender of all German submarines in Austrian waters and repatriation of allied and American prisoners without reciprocity.

Evacuation of Austrian territory roughly corresponding to the boundary lines claimed by Italy under the Italia Irredenta or treaty of London. The right of occupation of allied forces is assured local authorities to maintain order under allied supervision.

The terms of the armistice are to be carried out under the direction of Marshall Foch, who will designate material to be turned over and supervising the movement of Austro-Hungarian forces to the rear.

All German troops in Austria Hungary, Italy or the Balkans must be put out of commission within fifteen days. Destruction of any property by retreating forces is specifically forbidden.

Ships to be surrendered include modern Austrian submarines, three battleships, three light cruisers, mine destroyers, 12 torpedo boats, one mine layer and six Danube monitors to be designated by the Allies. All other war craft are to be concentrated and disarmed under Allied direction.

Free navigation of all Austrian rivers by both the way and commercial fleets of the Allies is provided for.

All enemy naval aircraft are to be put out of commission and concentrated under Allied control. All Austrian harbors and other equipment in occupied Italian ports is to be left untouched.

The Danubius route is to be opened by the occupation or dismantling of fortresses, to be selected by the Allied commander. The existing blockade of the Allies against Austria remains unchanged, and no shipping being liable to capture where found except where a commission, to be named later, provides otherwise.

All fortresses protecting naval bases or stations are to be occupied and the arsenal at Pola is specifically surrendered. All Allied craft held by Austria are to be returned immediately.

The only organized military force Austria is permitted to retain is limited to that necessary to maintain order in her own borders.

ITALIAN COMMANDER SIGNS ARMISTICE ON SUNDAY

London, Nov. 3, 6:12 p.m.—An armistice with Austria was signed this afternoon by Gen. Diaz, the Italian commander in chief, according to an official announcement here this evening. The text of the statement follows: "A telephone message has been received from the prime minister in Paris, saying that, news has just come that Austro-Hungary, the last of Germany's props, has gone out of the war. The armistice was signed by Gen. Diaz this afternoon and will come into operation tomorrow at 5 o'clock. The terms will be published Tuesday."

3 o'clock. The terms will be published Tuesday."

Paris, Nov. 3, 3:30 p.m.—Official announcement of the signing of the Austrian armistice reached the premises while they were in session at the apartment of Col. House, President Wilson's special representative this afternoon, and gave the greatest satisfaction. It was arranged that the conditions of the armistice will be made public promptly.

Rome, Nov. 3.—Italian and allied forces, in their drive in northern Italy have captured 100,000 Austro-Hungarians, the Italian war office announced today. More than 2,000 guns have been taken. The Italians have occupied Rovereto, 12 miles south of Trent.

Venice, Nov. 3.—"In the Italian theater of the war our troops have ceased hostilities on the basis of an armistice will be announced in a later communication."

ALLIES AGREE ON ARMISTICE TERMS TO PRESENT TO GERMAN

Washington, Nov. 4.—Armistice terms to be offered Germany have been agreed upon unanimously and signed by representatives of the allies and the United States in France. It accepted, they mean surrender and immediate end of the war, leaving final peace terms to the dictation of the victors.

Secretary Lansing announced the agreement tonight. The conditions follow the outline given by President Wilson of what would be required to preserve the supremacy of American and allied arms and render Germany powerless to renew hostilities.

It is understood the terms are to be submitted to Germany immediately and their publication in full will follow shortly. The statement has been authorized that the drastic conditions under which Austria dropped from the war today furnish an accurate indication of their nature.

Secretary Lansing made this an announcement:

"According to an official report received this evening the terms of the armistice to be offered to Germany have just been agreed to unanimously and signed in Paris. The report further states that diplomatic unity has been completely restored under conditions of utmost harmony."

TO MAKE A DELAY A DANGEROUS THING

London, Nov. 4.—Specific penalty for every day the war is prolonged after the Allies submit the armistice terms to Germany, with consequences definitely worse for the enemy if it fails to recognize the armistice as an ultimatum, is the suggestion of the Sunday Observer, as a means of forcing Germany know there never will be an abatement of the severity of the present Allied terms.

"A continuance of the war on Germany's side, initiative, already responsible for four years of inconceivable horrors, cannot be tolerated," says the Observer. "The time has come to force the issue, by diplomatic as well as military means."

TURKS ACCEPT ALLIED TERMS ABSOLUTELY

Paris, Oct. 31.—An armistice between the Allies and Turkey was signed today at Moudros, it is officially announced.

London, Oct. 31.—Sir George Cave, home secretary, in the house of commons today announced the terms of the Turkish armistice which are now in operation. They include free passage of the Allied fleet in the Dardanelles, and immediate repatriation of British prisoners. Other terms, it is learned, comprise the occupation of the forts of the Dardanelles and Bosphorus necessary to secure the passage of the Allied warships through the Bosphorus to the Black Sea.

As a matter of business, what do you think of the plan?

You are a farmer.

Canada is a farming country.

Canada grows more food than the people of Canada need.

To prosper she must sell that surplus food.

Great Britain is our best customer for grain, pork, beef, cheese and other farm products.

Every practical man must see how important it is to hold the British trade. Canada wants not only the profit on this trade, she wishes to create a good-will in Britain towards Canadian products and thus assure our export business for the future.

At the moment Great Britain asks for credit, asks Canada to sell her the products of the farm, "on time." To hold her trade, it is necessary to give this credit.

This takes capital—immense capital. For Britain's purchases from Canada are huge, and these purchases must be paid for in cash.

In these times, it is not easy even for a nation as wealthy as Canada to procure money. Certainly, no other country can lend us money. The only way now open for Canada to secure money is to borrow from the people of Canada.

This is the reason for selling Victory Bonds.

Can anyone deny the sound business sense of this plan of protecting our valuable market?

From the standpoint of the man who lends, what better security could he get for his money? Where else could he get a five and a half per cent. return on such security? Where would he find an investment to pay interest so regularly and with so little trouble to the lender? Certainly Canadians have an opportunity to benefit very directly from this borrowing plan.

And the money Canada borrows is spent entirely in Canada—a very large part of it for the very crops the farmer has to sell.

Therefore, if the Victory Loan is a success, business in Canada must be good, the nation must prosper and so be able to carry on a vigorous war effort in France and Flanders.

As a practical man you must approve of the Victory Loan plan.

Then help it along. Put your own money into Victory Bonds; urge your friends to buy; work hard among your loyal neighbors to make the Victory Loan 1918 an overwhelming success.

to be designated by the Allies and the United States of America.

Abandon All Craft

7. Evacuation of all the Italian coasts and of all ports occupied by Austro-Hungary outside their national territory and the abandonment of floating craft, naval materials, equipment, and materials for inland navigation of all kinds.

Allies Occupy Fortifications

8. Occupation by the Allies and the United States of all the land and sea fortifications and the islands which form the defence of the dockyards and arsenal at Pola.

Return All Merchantmen

9. All merchant vessels, held by Austro-Hungary belonging to the Allies and associated powers to be returned.

No Destruction Permitted

10. No destruction of ships, or of materials to be permitted before evacuation, surrender or restoration.

No Reciprocity

11. All naval and mercantile marine property of the Allied and associated powers in Austro-Hungarian hands, to be returned without reciprocity.

REPUBLICANS LEAD IN U. S. CONGRESS

New York, Nov. 6.—The Republicans have reversed the Democratic control of the house of representatives on the face of incomplete returns up to 3 p.m. today. At that hour both the Republicans and Democrats were claiming a majority in the second round of vote.

With returns from 17 congressional districts missing, the Republicans apparently had succeeded in hitting 225 of the total number, 435, of the seats in the house. The Democrats secured 191 seats, the Socialists one and the Independents one.

The senate race was in doubt at 3 p.m. The Democrats secured 50 per cent of the returns up to that time, and the Republicans a similar number. Reports from six of the contests were incomplete with returns favoring three Republicans and three Democrats.

GERMAN GASOLINE SUPPLY CUT OFF

Washington, Nov. 5.—One effect of the elimination of Austria from the war, the fuel administration announced tonight, will be cutting off Germany's supply of fuel oil and gasoline.

Germany has been obtaining fuel oil and gasoline from Austria and Rumania and was planning to import extensively from the Caucasus, the administration said, but, under the terms of the Austrian armistice, all traffic between Germany and her former ally must stop.

Within the borders there are, no supplies of fuel oil and information possessed by the fuel administration is that Germany has been using benzol for lubricating oil. This latter source, it was said, will not supply German needs.

The Italian fuel situation which has been serious from the beginning of the war, it was said, will be improved materially by the Austrian armistice. The Austrian mines, worked to full capacity, furnish only enough coal for the nation's needs. Demobilization of the Austrian army will allow the return of miners to their work and thereby probably prevent further because of lack of fuel which in that nation this winter, but will not provide, sufficient supplies to aid Italy.

PARIS SAYS HUNG MUST BE EAST OF RHINE TO GET AN ARMISTICE

Toronto, Nov. 5.—A special cable to the Mail and Empire from Paris regarding peace terms for Germany, says:

"One of the terms is understood to require Germany to evacuate the banks of the Rhine and withdraw her troops everywhere 25 miles, behind the river from the Swiss frontier to that of the Netherlands, inclusive. The Allies are to occupy the Rhine front throughout its length on the left bank in German territory, and all the bridges and bridgeheads, and to remain in occupation until the terms of peace, are completely executed."

PROVINCIAL HEALTH OFFICER OBJECTS

Regina, Sask., Nov.—The action of local authorities, throughout the province in closing or isolating towns, and villages and quarantining homes and other buildings because of the epidemic was declared to be illegal and contrary to the approved method of combating the disease, by Dr. J.M. Seymour, provincial health commissioner. He issued instructions to railway officials to discharge and pick up passengers at all points in the province, regardless of local rule, or

SCIENCE AND INDUSTRY AID
VICTORY LOAN

As an instance of how science and industry have co-operated in helping to win the war, it is interesting to note that Sir Thomas White, K.C.M.G., Minister of Finance, has made a special "His Master's Voice" record for the purpose of actually informing the Canadian public in his own voice concerning the need of the second Victory Loan.

Science has thus made it possible for the voice of the Finance Minister to be heard in thousands of places in every part of the country at the same time. The illustration shows Sir Thomas "caught in the act" as he made his special recording at the laboratories of the Gramophone Company, Limited, Montreal.

Save! Remember this, war has cost Canada a billion dollars, and the end is not yet.

FRIDAY, NOVEMBER 8, 1918

VICTORY LOAN OF 1918 MUST GO OVER THE TOP

Intentions from all parts of South Alberta are that this half of the province will go "over the top" in its Victory Loan campaign well inside of the allotted time. This confidence of success, however, must not be allowed to weaken the efforts of the Victory Loan organization or the general public. On the contrary, just as our soldiers at the front, with victory in sight, are hitting their hardest blows, so must the support lines at home redouble their efforts during the remainder of the campaign.

While there have been serious disadvantages—notably the influenza epidemic—to encounter, the spirit of the people of Southern Alberta, who are accustomed to meeting and beating difficulties, has more than offset the disadvantages. The greater the difficulties the harder the people work. And hence, there are some very great advantages this year. The bonds of the Dominion of Canada were never so attractive as they are today. They pay nearly twice as high a rate of interest as a saving bank will pay, and they are backed by all the wealth and resources of the whole Dominion of Canada. The big financial firms, life insurance companies, etc., are buying these bonds to the extent of ability. That shows what they think of them.

It is a mistake to suppose, that the buying of Victory bonds is in any sense a sacrifice. It is an investment, and the very best investment on the market. In order to save money to buy Victory Bonds it is necessary that people deny themselves other expenditures, and in that sense it is, perhaps, sacrifice, but the same is true of putting money in the bank or into land, or any kind of property.

Save as a matter of patriotism; save that we may win the war and pay for the war. But buy Victory Bonds as an investment. You may never again have an opportunity to buy the bonds of the Dominion of Canada at such favorable prices. The following letter has been addressed by Mr. H. W. Wood, president of the United Farmers of Alberta, to the officers and members of the U. F. A.:

Just one year ago today I addressed circular to you asking you to purchase Victory Bonds. Your response was most gratifying. The campaign for action bond sale will begin on the 28th of this month. The rate of interest on bonds is the same, the country's need for money is the same, the opportunity for a good business investment is the same as last year. But I fully realize the financial condition among farmers this year are very different from last year.

Many farmers will be entirely unable to invest a single dollar. Others will be able to invest as they did last year, while a few may be able to invest even more than they did last year.

Buy at least one bond if you can, and as many as you can afford to buy. It is a good investment; it is a good security; it is a liquid asset. The country needs the money and the end of the war is in sight. If you cannot invest fifty dollars in a bond, but can invest fifty dollars in a life membership, so so and the U. F. A. will invest it in Victory Bonds.

Let us each invest according to his or her ability. Hoping that we are very near the end of the war.

Yours most sincerely,
H. W. WOOD,
President.

A word for the canvasser. Remember that he comes to you on behalf of the Dominion of Canada. He does so in many cases, at personal inconvenience and loss to himself. Treat him or her with courtesy due to a representative. Canvassers are members the canvasser is doing your work which must be done if Canada is to maintain her position among the nations fighting for a free world. You can show your appreciation of the work being done by the canvasser by buying your bonds courteously and quickly and to the utmost limit of your ability.

A GOOD INVESTMENT

Aside altogether from the element of patriotism involved in the purchase of the Victory Loan, its potentiality as an investment, security of outstanding importance. This is particularly true of the fifteen-year maturity.

Not only is the 5% per cent. rate of interest, which it yields much high-

er than it was possible for an investor in the securities of any stable Government to obtain in pre-war days, but the Victory Loan is gilt-edged in the fullest sense of the term. There has been a substantial increase in the public debt of the country during the past four years, but on the other hand, there has been even a greater increase in the annual productive value of the Dominion.

Prior to the outbreak of the war, the normal spread between the interest rate on Government securities and first-class mortgages was approximately 2 to 2½ per cent. During the last two or three years the spread has narrowed down to about one-half. To ordinary investors—that is to those who have sums of from a few to twenty thousand dollars to invest—the meaning of this is obvious.

When war ceases, and the money markets of the world return to normal conditions, the spread in interest yield between Government bonds and mortgages, must necessarily again widen, because of the higher character of the former type of security.

The holder of the fifteen-year Victory bonds will, however, still be free from taxation.

It is as much as any duty to save as it is the duty of the soldier to fight.

Save! The money wanted today will be needed to-morrow.

A HELP THAT IS WORTH, WHILE

The man who buys a Victory Bond helps:

1. Himself by: (a) Encouraging the saving habit. (b) Getting a high rate on his money. (c) Securing an absolutely non-speculative investment.
2. Himself and his fellow citizens by: (a) Giving employment to thousands in Canadian munition factories. (b) Giving trade to the merchants from whom these people buy. (c) Creating in this way a general prosperity throughout Canada.
3. Canadian soldiers by: (a) The encouragement which they derive from the knowledge that the folk at home are helping win the war. (b) The munitions which ensure them a bountiful supply of food and shell. (c) Their maintenance abroad. It is in exchange for Canada's outfit upon munitions that Britain maintains Canada's army overseas.
4. Great Britain and her allies by: (a) Conserving Britain's finances, which have been the backbone of the allies as well as of Britain herself. (b) Affording to the allies both munitions and ships. (c) Releasing men in Britain for the battlefield, who would otherwise have to be making munitions.
5. Civilization by: (a) Helping to win the war. (b) Helping to promote thrift. (c) Helping to strengthen the ties between Canada and all the allies. And a help like that is help worth while, isn't it?

FOOD BOARD SAYS MORE SAVING OF SUGAR

In a statement on the sugar distribution difficulty, the Chairman of the Canada Food Board, Mr. Henry B. Thomson, says:

"Since last May, when the use of sugar in Canada was rigidly cut down, manufacturers, candy makers, public eating places and large users have played the game fairly, and have abided by the rulings of the Canada Food Board."

"Approximately 200,000 tons of sugar will be required in Canada for 1918. Only 12,000 tons of this will be used in the confectionery industry. If the Food Board issued an Order absolutely closing down the factories, we should discharge the country and throw hundreds of people out of work."

"If the people in the homes would not get the 'second spoonful' of sugar in their tea and coffee it would save more, than four times the sugar allotted to the confectionery manufacturers. It could be done with a little good will."

"Notwithstanding the Order issued on September 12th, there is reason to believe that a large number of people, hoard sugar in the homes. It is only a little hoarding, but when multiplied by the number of homes in Canada, it is a huge quantity in the aggregate. There is possibly also a good deal of waste which if checked by everyone, would make the situation easier."

"It is for the consumer to 'get in behind' the Food Board now as the manufacturers have done. There will then be an ample supply of sugar for all."

Save! Remember that the 425,000 men who are overseas can't get home for awhile, and they must be kept.

Suddenly, in the glow of the evening lamp, a presence appears—a great artist, with violin in hand; who at our bidding, draws from the strings a thrill of joy, a sob of grief, a sigh of love.

And under the enchanting witchery of music, we are transported back to the old-time rest and comfort of happier days.

Gradually the dream picture dissolves, the presence fades, and we behold the most marvelous of all musical instruments—

Farmers are Stopping the Profit-Eating Leaks This Year

Comparatively few farmers fail or lose heavily because of misfortune such as fire, wind or drought. The majority of failures and losses are from combined little leaks, and it is the many little leaks that are being studied and stopped.

HERE ARE SOME OF THEM—Feeding Wastes, Disease from Unsanitary Buildings, Unprotected Machinery. There are others but here are enough to kill the profits on any farm.

THE REMEDY—Concrete Gravity Foundations and Floors, Concrete Barn and Hog House Floors, a Machine Shed. None of them are expensive and each will quickly pay for itself. Call and let us give you prices.

Monday brought the first touch of real winter to this district. About two inches of snow accompanied by a cold north wind made it seem like the real thing.

On another page, of this issue of The Review-Advertiser is published a notice from the Department of Militia and Defence, affecting soldiers on harvest leave.

Did you see those combination sign and screen doors at the Beaver Lumber Co's office? Buy your wife one for Christmas, but do your Christmas shopping early.

The influenza epidemic has compelled the cancellation of the Lyceum course of entertainments. This is a real loss to the community, as the entertainments were of a very high class.

The Victory Loan is still mounting up. The latest report gave the amount for the Claresholm district as \$225,000.00. Amongst the large subscribers are T. D. Lewis, \$60,000.00; John Johnson, \$25,000.00; N. H. Sifton, \$20,000.00. The objective for Claresholm was only 150,000.00 so that that amount has been surpassed \$75,000.00. This has brought Claresholm the honor flag with three crowns. Subscriptions are still coming in fast and it is expected that \$250,000.00 will easily be reached before the campaign closes.

Mr. H. Penzloff and Mr. A. Lange each subscribed \$2,000 for Victory Bonds. This will doubtless be very pleasant reading to many of our readers who have had doubts as to their sympathy with the cause of the Allies. It was not necessary, as was expected, to use the tag and feather, either. Mr. H. Penzloff also gave \$200 to the Red Cross and carried the Union Jack and the Stars and Stripes through the main street. A man is not to be blamed because of the place of his birth, but every man should be patriotic in the land of his adoption and to the country where he made his wealth.

WAR AND THE SUGAR BOWL

No. 1
Sugar is scarce. There are fewer ships to carry supplies from the East Indies. They are used in carrying troops and munitions. The West Indies, from which Canada draws her supplies, must furnish sugar for twice as many people as last year. If we pay ship into the sugar trade, and if we continue to use that second needed spoonful of sugar in tea and coffee we shall have to, it will lengthen the war. Therefore, save sugar. Use strictly no more than 2 pounds for each person in the family in a month.

STAVELEY DOCTOR HAS SUGGESTION

Mr. Editor:—

There are two kinds of people, those who get specific influenza, and those who do not, and they are clearly defined and well marked. Those who don't seem to have a natural immunity which reside in the blood. I would suggest, as a cure, that a little blood be taken from the arm of a healthy person with the natural immunity and injected under the skin of a patient in the first stage of "Spanish Flu."

There are two stages: First stage is influenza; the next is the pneumonia.

The blood of the immune people carries a certain quality that protects. If this is given (the quantity does not matter) to patients in the first stage, they will not get pneumonia in the second stage.

Yours truly,
R. W. AUDE, M.D.
P.S.—It isn't the "Flu" that kills, it is the pneumonia that follows.

Military Service Act, 1917.

EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor in Council, impose obligations upon every employer TO ASSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN DEFAULT UNDER THE MILITARY SERVICE ACT.

An employer who is charged with having a defaulter in his employ must be able to prove THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION at the time when the employee was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

REGULATIONS.

106. Every person who employs or retains in his employ any man who has deserted or is absent without leave from the Canadian Expeditionary Force, or who is in default in the performance of any obligation or requirement for military service imposed upon him by the Act or Regulations, or any proclamation thereunder, or any offence punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars, and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he made due inquiry and that THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR THE MILITARY AUTHORITIES TO THE MAN SO EMPLOYED OR RETAINED IN HIS SERVICE WERE PRODUCED FOR HIS INSPECTION, and that it was reasonably established to his satisfaction by such inquiry and papers that the man was not a deserter or absent from the force without leave, or in default in respect of any of the obligations or requirements aforesaid.

REPORTED THAT GERMANY DECIDES TO ACCEPT TERMS

Berlin, Nov. 6.—An official statement issued here today says: "A German delegation to conclude an armistice and take up peace negotiations has left for the western front."

Montreal, Nov. 6.—The Morning Star, evening publication, the following:

"London, Nov. 6.—(semi-official) reports declare, that Germany has decided to accept Puch's terms." "Washington, Nov. 6.—Armistice terms prepared for Germany by the supreme war council soon will be in the hands of the German emissaries now on their way from Berlin to the western front, but the time that must elapse before it is a decision as to their acceptance or rejection will depend largely upon the powers, with which the German delegation has been clothed. There is nothing to indicate just what authority has been conferred upon the representatives of the German government. The official announcement from Berlin via London today said:

"A German delegation to conclude an armistice and take up peace negotiations has left for the western front," but the language employed may or may not be significant. Officials here have assumed that the German representatives, after securing terms from Marshal Foch, will transmit them by telegraph or convey them personally to the German high command in the field, for it is understood to be the purpose, in the present case as was done with Austria, Bulgaria and Turkey, to deal with the armistice as purely a military matter between the military commanders. Should this procedure be followed, it is regarded here as probably that several days may elapse while the German general staff, nominally at least subordinate to the civil government, can consider the terms and lay them down and reach a decision. There

can be no argument as to the terms, for under how harsh they may appear to the Germans. The only course left to Germany is to accept or reject them. Meanwhile Marshal Foch is expected to continue, the pressure on the Teutonic armistice, which now threatens their safety along a 200-mile front.

No announcement has yet been made, as to when the terms of the armistice will be made public. The publication will probably be delayed until Germany has reached a decision with regard to their acceptance or rejection.

THE RED TRIANGLE

With music and "mories" the Y.M.C.A. is out to conquer the monotony and isolation of the lumber camps on Queen Charlotte Islands where aeroplanes are being manufactured for the Government.

A combined hotel and recreation hall has been erected at Thurston Island by Mr. D. E. Hest, the Y. Secretary for the Moller Island group of camps. The building is 32 x 132 feet, two stories, with cottage 32 feet, quarters for the Secretary, and shower bath. There are 4 small and 1 large room to be used by transients. Mr. Hest has charge of the building and he meets the boat which arrive at night and early in the morning.

During August the score or more camps and sawmills of the Moller Island group is situated by the Y.M.C.A. Secretary, Mr. G. B. Welch. His address on patriotic, moral and religious issues were well received, and the literature he distributed, including six pamphlets was eagerly welcomed. At headquarters at Buckley Bay a test has been set up and equipped and the committee will bill the bill until permanent quarters can be secured.

IMMEDIATE RELEASE OF ALL PRISONERS THE FIRST DEMAND

London, Oct. 30.—That the immediate release of all British prisoners would be insisted upon by the government as part of the armistice terms is confidently expected here. Sir George Caves, the home secretary, announced yesterday that the same conditions imposed on Bulgaria in this matter would be insisted upon in any truce with Germany and Austria, and Gen. Allenby had been instructed to follow the same policy in dealing with the Turks. There is plenty of evidence that British prisoners have received worse treatment throughout the war than the others, except the Russians.

Such a demand will be a very important factor and it is not likely that the other allies will show less regard for their nationals who are suffering in German camps. Events since the German peace overtures were launched have not tended to instill any spirit of conciliation, forgiveness or leniency toward the enemy in British breasts.

The sinking of the Letistoff followed close on the German note. The evacuation of Belgium and French towns four years under German rule has opened what has hitherto been a sealed book of rumors, and authentic stories from truthful pools of German barbarities towards the inhabitants have been flooding out.

The Last Straw

Finally yesterday's discussion in the house, of common of the treatment of British prisoners appeared to have been about the last straw breaking the back of British patience—patience which the country generally seems now to think has been carried much too far. The Germans have only themselves to blame that these revelations came at a time so unfortunate for German interests.

The topic was forced upon the house by a strong public demand for light terms German blackmail in refusing to ratify an agreement, drawn up for an equitable exchange of prisoners unless the British consented to go outside that subject, and give guarantees against the deportations of Germans from China.

Capitain Craig, an exchanged prisoner, told with emotion of his experiences and the sights he had seen in the prison camps.

Terrible Conditions

Sir George Caves, the home secretary, gave details of wholesale deaths of British soldiers, kept ragged, starving and verminous and compelled to work long hours in salt mines, and upon the circumstances of what is the rules of The Hague convention, beaten and tortured and shot for petty or no offence.

Bitter Feeling in House

Old parliamentary representatives say that they have never seen such a bitter and strong feeling pervade the House of Commons. And the same feeling has infected the whole country. The only group of members who held aloof was a handful of pacifists, who appear to object to any unpleasant words about Germany more than they object to the war.

The general nature of the military guarantee, which the allies will require, has been outlined as the occupation of strategic German bases as well as the retirement of the German army to its own soil. Moreover, the same conditions are considered equally important to Great Britain. Their nature too, is far more speculative, but the interpretation of the German submarines, if not the whole fleet, appears to be the minimum terms, which would satisfy the British people. The sea is as important as the land to this island nation, and the only detail in President Wilson's fourteen points, which there is constant questioning is what the president means by "the freedom of the seas."

German's of Enemy

Suspicion is the word which still summarizes the public attitude toward the central powers' maneuvers. Some of the most important papers believe that Germany and Austria, or what remains of the Austrian government, are working together. They interpret Austria's rush towards a separate peace as part of a plan—now the Austrian military power is dissolving—to place Austrian territory as neutral ground between Germany and the allies' armies, which may soon be able and ready to march through Austria.

Turkey's position is not yet clear. The committee of union and progress apparently is still in the saddle at Constantinople. The fact that David Pasha, minister of finance, is one of the most influential men in the cabinet seems to show that Talat Pasha, former grand vizier, is still strong along the side, and that the Young Turks and Germany yet hold the power.

Germany's Gratitude

The one and greatest hope of the old guard in Germany, judging from the German papers, is that the new drive a wedge between President Wilson and the allies and to make the president's peace terms impossible instead of intelligent. The Frank

fort feeling gives: "If the allies insist upon such disarmament terms, as to make further German resistance impossible, not only Germany, but President Wilson, himself would disappear from among the factors which are decisive for the conclusion of peace."

His own position as world arbitrator depends solely on whether Germany's military power at least is worth so much that it cannot be forced to surrender without the help of the American forces.

The article concludes by cleverly trying to make it appear that the president's role is now linked with that of Germany, by saying that in such a position as outlined, his role would be played out if he did not commence war against the allies.

Unpleasant Atrocities. London, Oct. 30.—In the house today Sir George Caves, said that he held reports which could not be read to the house because of the character of the atrocities. In one camp since November, 1916, more than 2,000 prisoners of all nations had died.

Sir George said nine men purposely drove picks into their feet in order to get away from a mining camp. In a salt camp a prisoner was beaten unconscious, and when he regained his senses he was beaten unconscious again. The names of the officers and superintendents who carried out the orders against the prisoners were given. Unpleasant Atrocities. In one camp since November, 1916, more than 2,000 prisoners of all nations had died.

Regarding the treatment of British prisoners behind the firing line, Sir George said it was as bad as anything that could be found. Although General Ludendorff had promised serious promises had not been fulfilled. Men were being marched up and put to work within range of the British shell fire. They had to carry munitions of war and do work which prisoners should not be put to, it was necessary for the facts to be known, the speaker declared.

Germany had a debt to pay, and Germany ought to be made to pay it. Sir George said that in the bad treatment of British prisoners, Turkey had proved herself a fit ally to Germany. Bulgaria also had treated prisoners very badly, but happily the suffering of the captives there, was over and the men were being brought out of the country.

Destruction of Property

Washington, Oct. 29.—Documents quoting views issued by German command of the Belgians and French territory during the recent evacuation of Belgium and French territory have reached Washington. Among them is an order taken from a prisoner, issued by the commander of the 10th Infantry brigade of the German army on Sept. 5, directing specifically that certain villages be destroyed by the rear guards.

Designated units are assigned to the destruction of the village, named, and, in addition, the order stated, "It is the duty of every soldier to participate in these destructions, which are to be carried out 'with more method and less haste.'"

The order signed "W.E.C.K." presumably either the brigade commander or his chief staff, says, "It is recall that wells are to be contaminated."

COLLAPSE OF AUTOCRACY

London, Nov. 2.—Ex-Premier Asquith speaking at Glasgow yesterday, said that the most striking change which had occurred in Europe was the complete and irrevocable collapse of autocracy. In 1914 three emperors ruled the greater part of Europe and a large part of Asia. The Russian emperor now had been deposed and murdered. The Austrian emperor was a waf and arid, whilst the third emperor was hovering on the verge of abdication. When he learned of peace, those thrones cannot be shaken.

We entered the war as the champions of the smaller nations. Despite their tribulations every one of these would ultimately find its trust in the allies more than justified. History would record how justly this achievement was due to the British navy, the merchant navy, the armies, the air force, and British finance. Our general issue could still be summed up in two words—reparation and security.

GREAT ITALIAN DRIVE HAS NOTHING TO EQUAL IT IN MILITARY RECORDS

Washington, Nov. 6.—Austrian prisoners captured by the Italians, before the armistice took effect, yesterday are estimated now at half a million and the booty taken includes 250,000 horses. An official dispatch from Rome today telling results of the final Austrian defeat says in the army of the Trentino alone over 150,000 German prisoners, captured, are being sent into the hands of the Italians.
